RHINO ARK OBJECTIVES

Rhino Ark seeks solutions to the challenges facing the mountain forest ecosystems of Kenya, also known as the water towers. More specifically, Rhino Ark aims to:

- (i) Protect Kenya's mountain forests, other threatened habitats and their rich biodiversity;
- (ii) Engage and educate adjacent communities in conservation;
- (iii) Secure the connectivity between mountain forests and other threatened wildlife habitats;
- (iv) Establish sustainable financing mechanisms for the conservation of mountain forests and other threatened wildlife habitats;
- (v) Advocate nationally and internationally for the conservation of the mountain forests and other threatened habitats, their wildlife and their ecological functions; and,
- (vi) Use science to assess the impacts of, and review conservation interventions.

EXECUTIVE DIRECTOR'S VIEW

CHRISTIAN LAMBRECHTS

After the electoral season, the settling in of the national and county governments brings new opportunities to mainstream environmental conservation as a key pillar to achieve sustainable development in Kenya. This is particularly important in our country, where: (i) the livelihood of the majority of the population is dependent on agriculture; (ii) the sustenance and development of our main cities, which are key economic centres, depend primarily on the flow of goods and services provided by nature; and (iii) the high diversity of natural ecosystems and wildlife are a real comparative advantage of Kenya globally as a tourism destination.

The new national government should take stock of the challenges that have emerged over the past years in Kenya's pathway to sustainable development. It should then implement the interventions that are required to address them.

High among these challenges is the degradation of critical ecosystems and protected areas brought by ill-planned large scale infrastructure developments, such railways, roads and dams. While we should embrace development investments made by the government, we should at the same time ensure that these developments do not adversely impact on Kenya's natural capital.

Another key challenge is human-wildlife conflict. These conflicts have been on the rise in many parts of the country, endangering the life of Kenyans and destroying their livelihoods. The conservation successes of Rhino Ark in addressing this challenge in the mountain forest areas by way of fencing and wildlife corridors offers a working blueprint for other parts of the country.

Insufficient budget allocation to the environment sector is a major concern. Over the past years, this has greatly impaired key government agencies, in particular Kenya Wildlife Service and Kenya Forest Service, in their function of protecting our natural heritage.

At the county level, it is essential that spatial land use plans are prepared. These plans provide the overarching frameworks that will ensure that the rapid urbanization and the large scale development projects witnessed in most counties do not encroach upon, degrade or destroy natural and man-made (e.g. agricultural) ecosystems, which provide most of the goods and services necessary to sustain our economic development. The establishment of wildlife corridors spearheaded by Rhino Ark with its partners demonstrates wise land use planning at the local level.

In developing new county integrated development plans, county governments should recognize the dependency of their key economic sectors on a healthy environment and well managed natural resources. They should invest towards conserving and further developing these natural assets. This will help mitigate risks that could jeopardize past and current developments and reduce our vulnerability to climate variability, including droughts and extreme rainfall.

On livestock, the challenges in Laikipia, Mau and other parts of the country arising from poor livestock practices and inadequate policies are urgent issues the national and county governments should confront. The threats to biodiversity arising from the various encroachments, clashes and asset destruction need to be addressed holistically within a structured framework. Otherwise, we risk being trapped in a perpetual crisis cycle.

The Smiling Shenzies Car 22 receive their award from Rhino Ark Director, Rose Kimotho

FUNDS AWARDS

1st David Schaefer Trophy:	Peter Kinyua/ Tomie Hellerstedt/ Moses Nyagah/ Johan Mistiaen/ John Macharia/ Tom Morton	KES: 15,353,311	Car 23
2nd Diamond Trust Trophy:	Peter Bonde-Nielsen/ Mbabu Muturu/ Alastair Bush/ Andy Nagy/ Andrew Stanley/ Nicholas Hodgson	KES: 8,839,850	Car 64
3rd Highest cash sponsorship:	Alan McKittrick/ Bruce Knight/ Jon Bovard/ Doungu Smith/ Kyle Ray/ Graham McKittrick	KES: 6,924,370	Car 5

EVENTS AWARDS

1 st Overall (Duncan Mitchell Perpetual Trophy):	Smiling Shenzies: Gray Cullen/ Tony Binks/ Peter Tyrrell/ Crista Cullen/ Simon Holdsworth/ Anthony Binks	Car 22
2 nd Overall:	King 21: Jonathan Somen/ Michael Kontos/ Derek Steel/ Jeremy Ashworth/ Richard Hechle	Car 21
3 rd Overall:	Hog Charge Team: Mark Tilbury/ Peter Robert/ Chris Eden/ Herman Ruijsenaars/ Robin Tilbury/ Guy Elms	Car 35
Victor Ludorum (Land Rover Trophy):	Smiling Shenzies: Gray Cullen/ Tony Binks/ Peter Tyrrell/ Crista Cullen/ Simon Holdsworth/ Anthony Binks	Car 22
1 st in Class U:	Hog Charge Team: Mark Tilbury/ Peter Robert/ Chris Eden/ Herman Ruijsenaars/ Robin Tilbury/ Guy Elm	Car 35
1 st in Class M:	Smiling Shenzies: Gray Cullen/ Tony Binks/ Peter Tyrrell/ Crista Cullen/ Simon Holdsworth/ Anthony Binks	Car 22
Coupe Des Dames (Tim Nicklin Perpetual Trophy):	Girls in Pearls: Teresa Sapieha/ Maryjka Beckmann/ Sallie Tilbury/ Fiona Elms/ Jill Craig/ Anna Wodzicki	Car 47
Spirit of the Charge (Rob Combes Trophy):	James Boorman/ Jamie Manuel/ Brandon Barbour/ Jamie Hendriksen/ James Thorogood	Car 57
Tim Samuels Gauntlet Challenge:	James Boorman/ Jamie Manuel/ Brandon Barbour/ Jamie Hendriksen/ James Thorogood	Car 57
Tiger Line 1 (Njia ya Ndume Award):	Team 48: Mark Glen/ Bryn Llewelyn/ Gerard Beaton/ Piers Daykin/ Steve Outram/ Johnny Harris	Car 48
Tiger Line 2 (Njia ya Ndume Award):	Team Huzi: Tony Hughes/ Mikey Hughes/ Russell Hughes/ Alastair Fison/ Charles Hewitt-Stubbs/ Jeremy Holley	Car 33
Kamran Fazal Memorial Trophy:	Crista Cullen	Car 22
Properly shafted Award:	KTM Cruisers: Ian Duncan/ Francesco Checchini/ Anthony Kinyanjui/ Anthony Nielsen/ Isaac Jones	Car 2
Most Meritorious International Team:	Team Batuk: Brian Knott/ Graham Cairns/ Michael Housden/ Simon Peremans/ Stefan Wright/ Allan Duncan	Car 55
Kijabe Award	Pink Horns: Glenna Jiwani/ Nimmi Chauhan/ Nili Doodhia/ Fatima Sidi/ Emmy Bisley/ Glaiza De Guzman	Car 4
Ken Kuhle Memorial Trophy	David Njenga (Kenya Forest Service)	

OUR TEAM SPIRIT

We would like to express sincerest appreciation to all those who made it possible to stage the event:

ORGANISING COMMITTEE AND OFFICIALS

David Lowe - Chairman Rhino Charge Committee/
Clerk of the Course
Christian Lambrechts - Rhino Charge Committee/

RHINO FUN TRIAL DAY

This year, The Rhino Ark UK organized a Rhino Fun Trial day at Butchers Wood near Uckfield and a small group of seasoned supporters and a few new ones enjoyed orienteering round the woods in their 4x4s and going through trials sections with quite a few twists and special tasks. In spite of the biblical weather, the competitors and spectators all shared a memorable time.

Ben Standen who was driving a Land Rover 110 emerged the winner, followed closely by Brian Bealey in his Suzuki and Derek Pirrie was placed third in his Buggy. A total amount of £850 was raised at the fun event. The event required no more specialist equipment than a sense of adventure, a tow rope and the will to get out there and have a go for a great cause.

FIRST BUFFALO CHARGE FOR TEAM JAZZ

The first annual Buffalo Charge was held on 7th October, 2017 at Aberdare Hills Golf Resort in Naivasha to raise funds for Rhino Ark in the name of Team Jazz, Rhino Charge 2018. It was a fun-filled day for the whole family with 5 types of events offered. A 5K trail run, a 5K bicycle cross country race, a 5K motorcycle race and technical stage (12 Under and Adult), a family 4WD SUV technical, and expert 4X4 technical event. It was a great combination for all, including fun in a big mud hole for the kids.

Congratulations to the winners of this first annual Buffalo Charge:

5K run - 1st: Micah Smith

5K bicycle - 1st: Rich Davis

5K motorcycle race & technical - 12 Under - 1st: Max Arensen

5K motorcycle race & technical - Adult - 1st: Micah Smith

4WD SUV technical - 1st: Kevin Smith

4X4 expert technical - Rhino Charge car demonstration by Steve McMillan in his SWB Gwagon.

A second annual Buffalo Charge is being planned for April 2018. It will include a motorcycle race & technical, family SUV technical and expert 4X4 technical (for Rhino Charge cars). This will be a great

chance to have some family fun and test out your skills in your family car. Bring your Rhino Charge car to give it a good test before Rhino Charge 2018.

If interested in competing contact Steve McMillan stevemellmac@gmail.com

PINK HORNS TAKE ON THE CHARGE!

BY GLAIZA DE GUZMAN AND GLENA JIWANI

The Team

Pink Horns is a group of six, young, energetic, fun-loving women (half of them are mothers) who have come together in the efforts to help conserve our environment and wildlife for our children and our children's children.

Why the name Pink Horns?

As simple as it sounds, it took about a month to finally agree on a name for the team. Thousands of discussions, arguments and Googling later, we finally settled for Pink Horns.

WHY? The colour pink represents compassion, nurturing and love (cheesy, but true), and that best describes each of us in our personal lives, and together with the conservation efforts for the Rhinos, the name seemed fitting! Plus, Pink is the new Black!

How it all began...

Two of our team members, Glenna and Nimmi, wives of Chargers, have been a part of the service crew for seven years for their husbands' team. They have seen all sorts of terrain and experienced every adventure and mechanical nightmare possible.

Every year, they've learned more and more about the cars, different terrains and how to maneuver through thicket, luggas and the inevitable breakdowns.

This year, they both decided to switch things up and dive into it and take part in the toughest motorsport event in Africa... The Rhino Charge.

Glenna and Nimmi decided to start recruiting as soon as possible; going through a list of family members, close friends, phone contacts and even just acquaintances to suss out if women are actually willing and able to partake in this wild adventure.

After weeks of ticking and crossing out names from a list, the team was built:

Glenna D. Jiwani – Driver (Bad*ss Driver)

Nimmi Chauhan – Navigator

Emmy Bisley – Long Runner (Iron Lady – tough as nails)

Fatima Sidi – Short Runner (Miss Sassy)

Glaiza de Guzman – Short runner (Boss Lady)

Nili Dodhia – Long Runner (The strongest of the bunch)

The Car

We take pride in the fact that our vehicle is entirely built Kenyan, which was put together by a team of top-notch fabricators, engineers and mechanics from Hans Kenya.

Our car runs on a 4.3litre V8 Petrol Lexus Engine. Nothing is original:

- Started off as an FJ Cruiser
- Added Unimog Axels
- And finally Swapped out the engine to Lexus v8.

Our beast is called Kobe-berry, and yes it's purple in colour and not pink... Why you ask? Purple was the only available paint in the workshop at that very moment, and it was in serious need of a makeover.

Preparing for the Rhino Charge

Practice, practice, practice.....

We had the opportunity to train with veteran chargers, who, not only showed us how to tackle terrains, but showed us how to have fun doing it. We trained in some of the toughest outdoor sections in and out of Nairobi; where we had to drop our car from a 20 meter steep hill with loose soil, to winching up our 3 ton car using only half a tree stump hoping it wouldn't come loose from the ground, to running through uncharted wilderness jumping over scorpions and snakes.

Yes... it was a piece of cake! Lol.

During our training, we learned a lot about each other, our strengths, weaknesses, and all the areas that needed improvement. From there, is how we positioned each team member outside of the car.

We practiced every month and sometimes twice a month, testing our physical strengths, our navigation skills and mechanical ability.

Our off-roading sessions would usually start early Sunday morning. Our meeting point was always the KFC on Mombasa Road, and needless to say, our diet wasn't the best in the last 6 months, but we loved it!

By the time we'd get to our practice spot, we'd be pumped and ready to take on the wild. Our practices would usually take between 5-7 hours depending on the challenge that was given to us by Jon Bovard and Ajitesh Kapoor. At the end of it all we would come out with scratches, wounds and ticks from all the

crawling and running through thicket.

As for our mechanical training, we'd head over to Hans Kenya in Industrial Area first thing on a Saturday morning where we would be met by Ajitesh Kapoor and his top team of mechanics.

We would discuss about our challenges during our last practice and see how to fix certain parts of the car if that situation were to occur again. We'd go around, over and under the car changing pipes, oil, tyres and even bleeding our brakes if we had to.

Fundraising

Wow, where do we begin, this was by far the toughest one to tackle – raising money.

We held two fundraising events:

Talisman Restaurant – They were kind enough to give us the venue to host our fundraising event. They created a Pink Horns Menu and cocktail drink where 50% of the proceeds would go directly to Rhino Ark under our team name.

Everything was obviously pink, from the menu, cocktail drink, décor to even our dress code. We had amazing entertainment by Kavi Pratt and DJ Arkitekt who brought the house down with some epic tunes. The turn out was unbelievable, full of family, friends and many other great supporters.

To raise a bit more, we sold raffles tickets with great prizes to be won generously sponsored by some amazing companies. The Grand Prize was 2 VIP tickets to the DIPLO concert that was sponsored by African Speakers & Artists.

Being our first ever fundraising event, we did not have any expectations of how the night will go or if people will actually turn out, but the night was surely one to remember.

Wine + Rounders – a.k.a Wounders

A group of women organize a monthly exclusive rounders' game coupled with bitings and wine.

Confirmations are made and teams chosen days before the tournament. Fifty women gather on the field, split into 5 teams, that then play each team with the objective to win every game they're set in. They were kind enough to let us host the May 2017 event and what a turnout of comradeship, donations and sportsmanship, women supporting women.

The rest of the sponsorship came from a number of generous family members, friends, client's and other companies who wanted to help make a difference.

Alas, the time has come...

All packed and ready for a long journey ahead. We left at 4am with a convoy of 10 cars, one canter, and a low loader with 6 charge cars. It was a long journey indeed. The roads were foggy in the morning, cool in the midday and hot as ever in the afternoon. The terrain and views on the way to Marsabit was spectacular, from the busy road of Nanyuki and heading to the quiet serene road of Archers Post, from dry dusty to a green lush of Marsabit County – the upside down Rhino Charge, as the organizers coined it. As tired as we were, we set up camp in no time.

Two days till D-day, we mentally prepared ourselves, checked our Kobe-berry – to make sure everything works, minus the electric window, central locking doors, wipers + AC.

Ta-ta-ta-dah

Full of energy, butterflies in our stomachs, nervousness, we had an array of feelings going through us, but the day has come and we were ready.

Setting off at 7am from our starting point – Slater and Whittaker, felt like we finished the charge, because we were dusty from head to toe, just getting from HQ to our start point.

Reaching our first check point was already a victory to us, but the show must go on. We traversed through thicket after thicket only to find a valley between us and our next check point, but made a wise decision to go around

it, making us reach the Gauntlet, where we were cheered by our family, friends and the amazing spectators.

We continued our journey, meeting other chargers on route and we kept heading towards valleys and ravines, that made our navigation a little more complicated than we anticipated. Five checkpoints down the line, we were over the moon, eight more to go, with the occasional checking of water, loose pipes and clearing the hood from leaves and sticks.

Heading towards the sixth one was a tough one, we went through rocky patches, heavy thicket and more ravines (that we eluded), but we made it. Six checkpoints and the time was running out, and we made the decision to head back to HQ.

Reaching HQ was our highlight, the fact that our car made it through the terrain, our spirits were lifted, everyone cheering us on, we were a happy bunch.

Prize Giving and Epilogue

We were over the moon to find out that we won the coveted “Best New Entrant”

Rhino Charge 2017 was undoubtedly the toughest of them all – as we were told by veteran Chargers. We made the most of the whole event, in terms of traversing through the terrain, to tackling winching and whether or not we should go down or up a valley – we did our best and had fun doing it.

We would like to thank Ajitesh Kapoor – our main sponsor and trainer, Rizwan Jiواني, Dash Patel and Jon Bovard for having to put up with us and all our hormones. Our amazing family and friends for their support.

To the Rhino Ark organizers, we commend you for the hard work in preserving our environment and wildlife.

To the next Rhino Charge, we look forward to seeing what you have in store for us.

RHINO ARK NEWS

NEW RHINO ARK FILM LAUNCHED IN LONDON

A new film on the conservation work of Rhino Ark entitled "Rhino Ark – protecting the mountain forests of Kenya" was launched on 2 November 2017 in London, United Kingdom. The launch event was hosted by the international law

firm, Stephenson Harwood, which contributed substantially towards the production cost of the film. The film has been produced by the award winning Camerapix TV, headed by Salim Amin.

The launch was attended by over 130 persons, including Lord Aderdare, Patron of Rhino Ark, H.E. Lazarus Amayo, Kenya High Commissioner to UK, Peter Kinyua, Chairman of the Kenya Forest Service, Christian Lambrechts, Rhino Ark Executive Director, Kamal Shah, Partner & Head of Africa and India Groups at Stephenson Harwood, Nick Kuhle, Rhino Ark UK Trustee, Patrick Orr, Rhino Ark UK Trustee, and Juliette Shears, Bongo Surveillance Project fundraiser.

The launch was also a fundraising event with three key proposals presented to potential donors by Rhino Ark UK Appeal Director Paddy Hunter-Murphy.

Many thanks to Ocean Sole for supporting the event and for remitting 50% of the proceeds from the sale of their recycled products during the event to Rhino Ark.

RHINO CHARGE COMMITTEE BIDS FAREWELL TO DOC PRAMOD

The Rhino Charge Committee recently held a farewell luncheon to express their immense gratitude for the medical support provided by Doctor Pramod to the Rhino Charge for the past 12 years.

The committee formally thanked Doc Pramod for his services provided by his team of doctors and paramedics not only for the Rhino Charge fraternity but also by the large number of members of the host communities that he has treated over the years.

We will all miss your dedication, enthusiasm and good spirit Doc.

Doc Pramod receives a gift from David Lowe and Christian Lambrechts

RHINO CHARGE 2017 HAS BECOME CLIMATE NEUTRAL

In order to reduce the overall environmental footprint of the RhinoCharge, Rhino Ark and its Rhino Charge Committee have implemented and are implementing a number of conservation measures. These include making the Rhino Charge climate neutral, namely offsetting the CO2 emissions related to the event by purchasing corresponding amounts of carbon credits on the market.

To this end, Rhino Ark estimated the CO2 emissions related to the 2017 event and sent the estimate, together with the methodologies used, to the secretariat of the UNFCCC United Nations Framework Convention on Climate Change for validation. The total CO2 emissions are estimated at 486 tonnes.

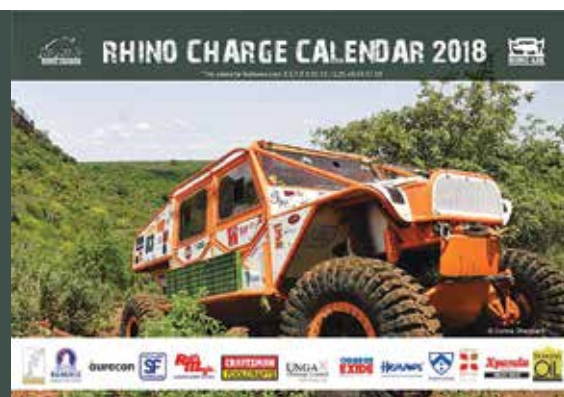

Rhino Ark has then purchased offsets for 486 tonnes from a carbon project implemented in Kenya that promotes the use of, and disseminates improved cooking stoves.

The Rhino Charge calendars for the year 2018 are now ready for purchase. Like in the previous years, they contain some of the most stunning photographs of the past Charge event.

There are FIVE different Rhino Charge calendars that feature all the 2017 competitors. This makes the calendar an ideal "thank-you" token for any car sponsors.

The calendars are available from 1 November from Rhino Ark Charitable Trust offices or at Text Book Centre across Nairobi! Get your copy now, limited stocks!

Thank you to all who contributed to the production of the calendars: photo donors, designers & advertisers!

AUTOXPRESS GIVES ANOTHER KES 2.5 MILLION TO RHINO ARK

In January 2016, AutoXpress expanded its support to Rhino Ark and agreed to contribute the equivalent of KES 2.5 million in tyres over the next two years to support Rhino Ark "to enable it to continue doing the wonderful work it has been doing in preserving our environment".

Wishing to further support our conservation work, AutoXpress agreed to another donation of KES 2.5 million worth of tyres for the years 2018 and 2019.

Philip Baker, CEO of AutoXpress hands over a sponsorship cheque of KES 2.5 Million to Christian Lambrechts

Paddy Hunter-Murphy visits the Eburu-Lake Naivasha corridor

Paddy Hunter-Murphy visits the Mt Kenya Fencing Project

EXPANDING RHINO ARK'S FUNDRAISING CAPABILITIES

The past five years have been marked by the expansion of our conservation portfolio that goes well beyond fencing to include: building capacity of KFS and KWS in fence management, combating wildlife crime and responding to wildfires; supporting community-based patrols; ecological monitoring; aerial surveillance; environmental education; promotion of bio-enterprise development; and securing wildlife corridors.

In order to secure the financial resources required to sustain the expanded conservation work, Rhino Ark UK Office have contracted the services of Paddy Hunter-Murphy a professional fundraiser. This is in line with Rhino Ark 2017-2022 Strategic Plan which sets new fundraising targets for both Rhino Ark offices in the UK and in the USA. The professional fundraiser visited Rhino Ark projects from 4th to 8th July to get a firm grasp of our conservation work and financial needs.

RHINO ARK BOARD VISITED KAKAMEGA FOREST

Visit of the Rhino Ark Board at Kakamega Forest

The Board of Directors of Rhino Ark visited Kakamega Forest on June 8. The Board Directors made an aerial recce of the entire forest, walked inside the forest and met with the senior field managers of KFS and KWS, as well as the chairman of the local community forest association.

The purpose of the visit was to assess the status of, and the current threats to the forest and to help establish whether there is a need for Rhino Ark to be involved in its conservation.

Kakamega Forest covers approximately 23,741 hectares, of which 19,742 ha are gazetted as forest reserve under KFS and 4,099 ha gazetted as national reserve under KWS. It is the only tropical rain forest of Kenya.

The KFS Chairman, the KFS Deputy Chairlady, the KFS Deputy Director in charge of Forest Conservation also participated in the visit.

RHINO ARK KENYA CHARITABLE TRUST NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2017

1. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below:

(a) Basis of preparation

The financial statements summarise the transactions of the Trust and deal with the net assets at the disposal of the Directors. The financial statements are presented in Kenya Shillings (KES), which is the Trust's functional and presentation currency.

The financial statements are prepared under the historical cost basis of accounting except where otherwise stated in the accounting policies below.

(b) Income recognition

Donations and Rhino Charge collections are recognised on receipt.

Investment income is recognised on accrual basis.

(c) Property and equipment

Items of property and equipment are stated at cost less accumulated depreciation. Depreciation is charged on the straight line basis over the estimated useful lives of the assets.

The annual depreciation rates in use are:

Motor vehicles	25.0%
Furniture and fittings	12.5%
Computers	33.3%
Office equipment	12.5%

(d) Foreign currency transactions

Transactions during the year are converted into Kenya Shillings at the rates ruling at the transaction dates. Assets and liabilities at the reporting date, which are expressed in foreign currencies, are translated at the rates ruling at that date. The resulting differences from conversion and translation are dealt with in the income and expenditure account.

(e) Financial instruments

A financial instrument is a contract that gives rise to both a financial asset of one enterprise and a financial liability of another enterprise. The financial instruments held by the Trust are investments in the money market, trade and other receivables, bank balances and cash and trade and other payables.

All the financial instruments held by the Trust are accounted for on amortised cost basis.

(f) Receivables

Receivables are stated at nominal value, less provision for any amounts considered irrecoverable.

(g) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short term deposits with an original maturity of three months or less.

(h) Use of estimates

The preparation of financial statements requires that management makes estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. The more significant estimation process is related to the determination of provision for doubtful debts. Although some variability is inherent in these estimates, management believes that the amounts provided are adequate.

2. PROPERTY & EQUIPMENT

(a) For the year ended 31 March 2017

	Motor vehicles	Furniture, fittings and equipment	Computers	Total

16. CONTINGENT LIABILITY		
The Trust has a pending court case in Meru High Court, Petition Number 9 of 2014, Law and Social Development Trust (LASODET) and 3000 others Vs The Attorney General and 10 others. The petitioners' claim is that they have communal land right to the section of Chuka Forest in which the Trust was putting up an electric fence. They also site breach of their constitutional right to public participation and to clean and healthy environment. The claim is yet to be concluded, however, the Trust was successful at the interlocutory stage of the proceedings by having the Court allow the Trust to proceed with the construction of the electric fence to manage human wildlife conflict in the area. No monetary reliefs have been sought by the petitioners in the claim save for an order of general damages for breach of constitutional rights and costs of the suit which the Trust is unable to estimate at this stage. The Trust has been advised by its lawyer that it is only possible, but not probable, that the matter will succeed. Accordingly, the directors have not made provision for any liability in these financial statements		
17. LEGAL FORM		
Rhino Ark Kenya Charitable Trust was established in 1991 under an irrevocable trust in accordance with the Laws of Kenya.		
18. TAXATION		
The Trust has been granted exemption from taxation under the First Schedule to the Kenyan Income Tax Act (Cap 470) under Certificate number 20170214/11869 dated 14 February 2017 valid for 5 years.		
19. EVENTS AFTER THE REPORTING DATE		
The Directors are not aware of any material events or circumstances that have arisen between the accounting date and the date of this report that would require adjustment to, or disclosure in, these financial statements.		
20. CURRENCY		
The financial statements have been presented in Kenya Shillings (KES).		

Rhino Ark has adopted a new constitution, which provides better-defined objectives and expands the governance structure. In addition to the Board of Directors, formerly known as Trustees, an Annual General Meeting (AGM) attended by up to 20 members has been set up to support the Rhino Ark management team in the area of governance, networking, public relations and resource mobilisation. This is in line with the statutory requirements of the NGO Coordination Board that regulates the NGO sector. The first AGM was held on 16 November 2016.

The year 2016-2017 was marked by major milestones in our major new projects in Mt. Kenya and South Western Mau.

It was also one of continued support both from thousands of donors to the annual Rhino Charge, direct corporate donations and a resumed significant support from the Treasury through Kenya Wildlife Service for the procurement of materials for the Mt. Kenya fencing project.

Whilst the Mt. Kenya and the Mau were at the centre of our current & forward planning and funding in the year, the Aberdare Fence, Rhino Ark's initial flagship project, remained a major focus of funds disbursement for its maintenance.

Rhino Ark has formally agreed to embark into the fencing of the most vulnerable boundary of South Western Mau Forest Reserve, the largest forest block in the Mau Forests Complex. This builds upon the initial conservation activities carried out in South Western Mau in partnership with the Netherlands-based IDH Sustainable Trade Initiative and their project "Initiative for Sustainable Landscape (ISLA)" aiming at conserving that forest and bringing sustainability in the broader landscape.

In 2014, Rhino Ark began the rehabilitation of the Phase I of the electric fence, along the Eastern Salient of the National Park. The 38-kilometre phase that was completed in 1992 has now outlived its intended lifespan. The rehabilitation of Phase I continued and is expected to be completed during the next financial year.

Overall funds 2016/17

The total funds raised during the financial year under review were KES 169.6 million. This included donations from Rhino Charge, Corporates and other donation.

Despite the difficult economic times, the 2016 Rhino Charge exceeded expectations and raised at field audit a total of KES 139 million or approximately US\$ 1.35 million.

The Treasury through Kenya Wildlife Service was a major donor providing KES 30 million for fence materials. As those funds were not channelled through our accounts, they are not reflected in our balance sheets, although they are earmarked in support of our fence projects in Mt. Kenya.

Every kilometre of fence built under the partnership agreements with Kenya Wildlife Service (KWS) specifies that materials are provided by Treasury funds or key partners, whilst Rhino Ark's inputs include payments to personnel for each completed kilometre of fence, vehicles, machinery, fuel, tools and mobile housing. In addition both KWS and Rhino Ark commit management time for constant supervision and issues resolution with communities along the pre-planned fence alignment.

Corporate / conservation bodies support

Corporate and consensual grant supporters continued positively.

I would like to acknowledge the following organisations that have made generous contributions:

- Brad Kelley and Rare Species Conservatory Foundation for donating KES 12.01 million in support of the conservation of the mountain bongo antelope.
- Finlays/ Flamingo Horticulture Kenya Ltd for donating KES 8.12 million for fencing of SW Mau landscape and provision of free fencing posts made from recycled plastic.
- IDH-ISLA for donating KES 4.6 million (equivalent to Euros 41,912) for a feasibility study of establishing a physical barrier along the north-eastern boundary

of South Western Mau Forest Reserve, as well as for strategic and technical support and aerial surveillance.

- Eburu Rafiki donating KES 919,000 for supporting rehabilitation of the Eburu forest and its infrastructure.

Wider Mau Eburu conservation well underway

The construction of the 43.3 Kms perimeter wildlife proof electrified fence completed in November 2014 is now over two years old. The fence protects 8,715 hectares of indigenous forest within the Mau Forests Complex Water Tower.

Rhino Ark, along with KWS, KFS and Loldia Farm have completed the securing the wildlife corridor between Eburu Forest Reserve and Lake Naivasha, with one joint security outpost, one wildlife water point and the electric fences along the corridor between the Moi North Lake Road and Eburu Forest completed. This fence helps in reducing illegal human activity as well as contains wildlife within a safe zone while protecting surrounding communities from human/wildlife conflict.

Unique development in preparation is the building of a wildlife overpass above the Moi North Lake Road. The Kenya Rural Road Authority has endorsed the overpass proposal and already lowered the road to provide for the required height.

Eburu Rafiki group was launched in April 2016 with the aim of supporting rehabilitation of forest and its infrastructure under an agreement of KWS. Rhino Ark is facilitating the work of the Eburu Rafiki group through administration of their donations and providing logistical support for their forest rehabilitation work.

Rhino Ark is also supporting the establishment of nine model tree nurseries in selected schools around Eburu Forest. The first two nurseries, in Emmanuel Primary and Ndabibi Primary Schools commenced in January 2016. The most recent beneficiary of this project is Songolai Primary School.

A key milestone in the management of Eburu forest is a 5-year, comprehensive Participatory Forest Management Plan (PFPM) which is a legal requirement for all forest reserves. The 2017-2022 PFPM is anticipated to be ready for launch in June 2017, ushering in a new era of enhanced forest management and governance for this important ecosystem.

Mt Kenya fencing project

A total of 155 kilometres of the Mount Kenya Electric Fence has been completed. The fence will eventually encircle Mount Kenya. By the time it is finally constructed, the fence will reach 450 kilometres – giving protection to a World Heritage Site, a precious water towers and a unique range of biological diversity. The built fence currently runs from Kiringa River, Kirinyaga County, passes through Embu and Tharaka Nithi counties and is now in Meru County. The Mount Kenya Electric Fence is constructed under a public-private partnership, involving Government agencies KWS and Kenya Forest Service (KFS), Rhino Ark, the Upper Tana Natural Resources Management Project, Mount Kenya Trust and the local communities.

Rhino Ark, together with KWS, KFS and local communities, completed the construction of a second section of 20 km long fence in the Imenti Forest, which is a known human-wildlife conflict hotspot.

The report of the Mt. Kenya elephant census that was conducted with technical and financial support from the Wildlife Conservation Society and the Disney Conservation Fund has been issued, estimating the elephant population at 2,600 individuals. To address elephant movement in and around the Imenti Forest, an expert workshop was held in August which agreed on a common strategy.

Aberdare ecosystem

Although the Aberdare Electric Fence is completed, Rhino Ark is involved in the daily maintenance of the 400 km fence. Routine fence maintenance is carried out.

The Aberdare Joint Surveillance Unit (AJSU), which has been strengthened, continued conducting operations in the Northern Aberdare. The purpose of the continued patrolling efforts is to address illegal activities in Northern Aberdare which is a known hotspot area. AJSU also participated actively in the Mau Elephant Census and Aberdare Elephant Census which took place in September-October 2016 and January-February 2017 respectively.

Rhino Ark, together with KWS and KFS, conducted a surveillance flight above the Northern Aberdare in November 2016 and observed the illegal activity of logging of cedar trees for fencing posts. Several reconnaissance flights were conducted in January-March 2017 to assess the extent of the wildfires and provide real-time information to the fire-fighting teams on the ground.

Rhino Ark in partnership with Challenge Aid, a UK based Charitable Trust, extended the community library project dubbed 'School of Hope (SOH)' to include three schools. The concept of SOH is to provide a facility where learners can

converge after the normal school hours to do private studies and do homework/school assignments.

South Western Mau ecosystem

Over the last three years, Rhino Ark has been advising the Netherlands-based IDH Sustainable Trade Initiative in the formulation and implementation of their project "Initiative for Sustainable Landscape (ISLA)" aiming at conserving South Western Mau Forest Reserve and bringing sustainability in the broader South Western Mau landscape. Rhino Ark has taken the lead in coordinating the forest conservation portfolio of the ISLA project.

As part of the southern West Mau landscape conservation project funded by IDH, Rhino Ark is coordinating periodic surveillance flights above the South Western Mau Forest Reserve and parts of Western Mau Forest Reserve. At least five flights have been conducted by February 2017. These flights have helped in reducing illegal activities, in particular charcoal making.

Rhino Ark, with the financial support from Finlays and technical support from KWS, has completed the construction of a new outpost for KFS rangers at Arorwet along the 45 km long north eastern boundary of South Western Mau Forest Reserve. The quarterly aerial surveillance flights conducted by Rhino Ark, with support from IDH/ISLA and Finlays, revealed that north eastern boundary is the most vulnerable boundary of the forest.

The General Fund

We have removed the split between Fence Maintenance Reserve and Fence Construction Reserve and shown it as one line: General Fund.

Bongo Surveillance Project (BSP) successes

The Bongo programme continues apace, thanks to a dedicated band of conservation individuals who constantly seek out fund support from a variety of donors. A further USD 118,000 was received during the year from Brad Kelley and Rare Species Conservatory Foundation towards the BSP. The funds go towards collecting vital information about the Bongo, patrols, removal of snares and spear traps, as well as to the dynamic Bongo wildlife schools outreach programmes under BSP.

Under the auspices of the National Bongo Task Force, Rhino Ark organized a one week experts' visit to plan for the conservation and recovery of the bongo in Kenya. Three experts from USA involved in the breeding of bongos in Florida and Texas and one expert from Canada joined the Kenyan experts to chart a way forward.

Other initiatives

We have continued to provide additional management support to our partners, KFS and KWS and Mount Kenya Trust, by arranging aerial surveillance of the forests of Mt. Kenya, Aberdares, Mau Eburu and South Western Mau to identify illegal activities within these forests.

Together with key partners and the Mount Kenya Conservation Forum, good progress has been achieved in reaching out all the owners in the proposed wildlife corridor between Mt. Kenya and the Aberdares. Preparations are being made to host the first meeting with all the land owners towards securing a common vision.

Thousands to thank

Rhino Ark has an enormous following both in Kenya and now greatly developed overseas as well. Much of the fund raised focuses upon the annual Rhino Charge where individual car entrants make substantial pledges and raise even more than their pledge each year. It is a grass roots conservation thrust within Kenyan society that has now developed a deep foundation. Every donor knows that Rhino Ark's ventures are to secure the nation's precious 'water towers' and to work in partnership with the government to ensure good governance for maximum benefits. The 2011 Environmental Assessment triggered by Rhino Ark and with support from UNEP and the East African Wildlife Society's Kenya Forests Working Group (KFWG) has placed a value on the Aberdares alone at KES 59 billion annually in good/services (water being the most important) and in biodiversity benefits.

It is always difficult to single out thanks in a report like this. Rhino Ark Kenya Charitable Trust has thousands of donors in Kenya and friends overseas who support our home grown and home driven conservation initiative.

I thank all of you for your generous support.

I wish to especially thank the Rhino Charge Committee and the huge band of volunteers who yearly give so much time, thought, ideas and energy to running this unique event.

Isaac Awuondo

Board of Directors

HIGHLIGHTS FROM THE MOUNTAINS MAU EBURU ECOSYSTEM

EBURU FOREST: MPESA FOUNDATION PLANTS 7,000 YOUNG TREES

Officers from KDF and KFS plant seedlings

Schoolgirl plants a seedling

Service Assistant Director, Central Rift Conservation Area, and Ken Ogana, Energy Regulatory Commission in attendance. Local law enforcement was also well represented with Evelyne Owona, Elementaita OCS, Kenya Police Service.

The youth featured prominently, with pupils of the MPESA Academy from Thika and two area schools Morop Primary and Muthaiti Secondary participating vigorously in the tree planting.

In all, over 800 people participated in the tree planting, with Rhino Ark providing logistical support and coordination for the event. In remarks following the tree planting, Les Bailey congratulated the ERC, partners and the local community for the good work being done in Eburu Forest and promised to continue supporting the conservation work in the area. Ken Ogana from ERC expressed his appreciation of the work done by all the partners and promised to do more enrichment planting in the forest.

As part of the ongoing initiative to rehabilitate Eburu Forest's degraded areas, staff of the MPESA Foundation joined with the local community and soldiers of the Kenya Defence Forces on 27 June to plant 7,000 young trees in the Morop area of Eburu Forest. The MPESA team was led by CEO Les Bailey and the KDF team based at Gilgil was led by Col. Francis Langat.

The tree planting was hosted by Antony Kinyanjui, Kenya Forest Service Ecosystem Conservator, Nakuru County. Eburu project partners were well represented, with Aggrey Maumo Kenya Wildlife

Eburu visitors' guidebook

EBURU GUIDEBOOK COMPLETED

While the adjacent local communities have benefitted from its myriad values, Eburu forest has long remained relatively unknown to the general public. Only a handful of intrepid explorers have been fortunate to discover its treasures, which include rich biodiversity and exceptional topography and geological features.

A long-term goal of Rhino Ark is to document the exceptional values of Eburu forest and highlight them in the public domain. Towards this objective, and with funding support from the MPESA Foundation, Rhino Ark has produced a comprehensive 72-page visitors' guidebook about the forest. The guidebook explains the forest's natural history, showcases its biodiversity and presents six key nature trails through which a visitor can appreciate the different aspects of the forest. The guidebook, soon to be officially launched, will be offered for sale at Rhino Ark offices and at selected bookshops

EBURU MANAGEMENT PLAN COMPLETED

The 5-year (2017 - 2022) Participatory Forest Management Plan for Eburu forest has been completed. The plan process has now cleared the final step of negotiation of a Forest Management Agreement between Kenya Forest Service (KFS) and the Eburu Community Forest Association, paving the way for commencement of formal implementation. The plan was developed with technical and financial support from Rhino Ark, in collaboration with KFS and other key partners. Rhino Ark, as a key stakeholder, will continue to participate fully in the implementation of the plan.

EBURU COMMUNITY OUTREACH PROGRAMME GATHERS PACE

Presentation of demonstration charcoal making kiln to community

Community members read conservation brochure

Since the Eburu ecosystem conservation project kicked off in earnest five years ago, community engagement has been a core component of Rhino Ark's work. A robust community outreach platform has been established, through which initiatives to bring the community into the mainstream of conservation of Eburu forest and adjacent areas are undertaken. This platform has made it possible for other stakeholders to come on board and support the broad project objectives through specific activities.

The Eburru Rafiki group is a community based organization formed in 2016 that aims to support conservation of Eburu forest, and works closely with Rhino Ark and other key project partners. Under this collaboration, Eburru Rafiki has recently provided support for community outreach work. Starting in mid-September 2017 and running to early October, the Rhino Ark outreach team organized a series of ten interactive community sensitization forums. The forums covered: (1) briefs on ongoing forest conservation work; (2) demonstrations on use of domestic charcoal making stoves; (3) briefs

on wildlife regulations; and (4) briefs on the implementation of the recently completed forest management plan, among other topics. The forums also provided an opportunity for the community to give their views on various issues affecting them. The outreach team included Rhino Ark staff, officers from Kenya Forest Service and Kenya Wildlife Service, and the Community Forest Association leadership.

To enhance the impact of the outreach forums, Rhino Ark has developed special printed materials comprising posters and brochures which explain various measures that community members can take in their homes, within their localities and within the forest to enhance conservation. The materials, produced in both English and Kiswahili, were distributed during the meetings, and have been well received by the communities. Six demonstration domestic charcoal kilns units have also been procured and are being embedded with trained local community members at various locations to activate best practices and encourage adoption of the technology.

IMPROVING LIVELIHOODS: COMMUNITY GROUP UPSCALES HONEY BUSINESS

The Hifadhi Farmers Cooperative is a community self-help group comprising Eburu forest-adjacent farmers from Ndadibi location. The group was established in 2014 with the aim of improving livelihoods of its members. The trigger to the group's formation was training of community members in advanced honey production methods. The training, which

was sponsored by Rhino Ark with funding support from the MPESA Foundation, provided the recipients with new skills, which they proceeded to utilize.

The group currently comprises 127 members (97 women, 30 men), with 147 beehives. They are members of the Eburu Community Forest Association, and have an office at Gathondia centre in Ndadibi. As a well-established and registered group, they have also received support from organizations such as Imarisha Naivasha and World Vision. The group has two manual 3-frame centrifuges and four beekeeper suits, and have developed a brand for their honey. Their honey packaged for

Group with centrifuge for extracting honey from comb

Packaged honey ready for sale

sale in sealed jars, is currently sold locally. Group chairman Francis Njogu revealed that within the next 3-4 years they plan to upscale their production by increasing the number of hives

to 500 (inside the forest and on their forest adjacent farms) and to consolidate processing to improve efficiency. He further revealed that they produce candles from beeswax.

CONSERVATION EDUCATION PROGRAMME UPDATE

Official launch of the Conservation Education programme

Pupils of Muthiti Secondary School receive conservation education curriculum books

Rhino Ark continues to strengthen the Eburu conservation education programme in local schools. During the period June 2017 to September 2017, key achievements under this programme included the following: (1) Term 2 mentoring and monitoring visits to each of the participating schools by outreach officer Peter Munene; (2) Official launch of the conservation education curriculum with support from Nakuru County

Ministry of Education officials in September; and (3) Integration of newly inducted local conservation champions into Eburu conservation programme. The term 3 mentoring and monitoring school visits programme by Peter Munene commenced in October.

MAU EBURU BIRDS FEATURED IN NATURE KENYA MAGAZINE

Towards raising Eburu forest's profile in the public domain, efforts continue to be made to disseminate information about the forest. These efforts have yielded coverage in the August 2017 issue of the Nature Kenya magazine "Kenya Birding". The issue features a 3-page article on Mau Eburu (pg. 36-38), titled "Mau Eburu Birding Rediscovered", highlighting the exceptional birdwatching potential of the forest.

The forest was also featured in the "Going Places" column of the Sunday Nation newspaper on 10 September 2017. The ½ page article, by Jan Fox, offered a personal account of the experience of camping and hiking along the forest's Western Summit nature trail.

Cover page for Kenya Birding

BUILDING CAPACITY TO PROSECUTE WILDLIFE AND FORESTRY CRIMES

Participants at the training programme

Rhino Ark organized a two-day training programme on the prosecution of wildlife and forestry crimes at the Kenya Forestry College on 17-18 November. 35 officers from the Kenya Forest Service and 15 officers from the Kenya Wildlife Service operating in the Mau Forests Complex participated in the training which covered critical topics, including arrest procedures, scene of crime management, handling of evidence / exhibit, drafting of witness statement, drafting of charge sheet, court of law procedures, and court room etiquette. A moot court was also organized.

Many thanks to our resource persons: Hon. Thomas Mwangi, Senior Principal Magistrate, Hon. Agnes Mwangi, Senior Principal Magistrate, Hon. Helen Onkwani, Senior Principal Magistrate and John Abwuor, Advocate.

The training was funded by James Finlays Kenya and supported by IDH/ISLA.

MT. KENYA ECOSYSTEM

KEN KUHLE AWARD PRESENTED TO THE MT. KENYA FOREST COMMUNITIES

David Njenga, Ontulili Forest Station Manager presenting the award to his community

At the 2017 Rhino Charge Prize-giving (4th June), David Njenga, KFS Forest Manager, Ontulili Forest Station (Mt. Kenya), received the Ken Kuhle Memorial Award in recognition of his exemplary commitment to forest conservation. During the past drought, he relentlessly mobilized the communities to fight the many fires affecting the moorlands and the forest. He led day-in day-out all the teams that went on the mountain to extinguish these fires.

Upon his return to the Forest Station from the Rhino Charge, Mr. Njenga presented the award to the communities at Ontulili in recognition of their support to forest conservation and in particular their active role in fighting wildfires.

FIRST LANDOWNERS' WORKSHOP EXPRESSED STRONG SUPPORT TOWARDS THE PROPOSED MT. KENYA – ABERDARES WILDLIFE CORRIDOR

Participants in the first landowners' Workshop

Rhino Ark and the Mount Kenya Conservation Forum, together with key partners, including Kenya Wildlife Service, Mount Kenya Trust and Space for Giants, organized the first workshop for landowners that are located in the identified elephant corridor linking Mt. Kenya and the Aberdares on 28th July 2017.

The workshop aimed to inform the landowners on the benefits of establishing a secured corridor, in terms of reduced human-wildlife conflicts and creation of new economic opportunities, as well as to share experiences from other wildlife corridors established in Kenya: Eburu Forest - Lake Naivasha and Mt. Kenya – Ngare Ndare Forest.

The workshop is a very positive step in a process that started some three years ago with the initial identification of the elephant corridor.

Landowners in the proposed Mt Kenya-Aberdares Corridor visiting Eburu Fencing Project

BUILDING THE CAPACITY OF THE LANDOWNERS IN THE PROPOSED MT. KENYA-ABERDARE CORRIDOR

Rhino Ark organized a two-day field visit to the Eburu Forest-Lake Naivasha wildlife corridor for the landowners in the proposed Mt. Kenya-Aberdare wildlife corridor. The purpose of the visit was to learn from the successful establishment of the Eburu-Naivasha corridor, and share views with the land owners who make it happen.

The visit is a follow-up to the one-day workshop for the landowners in the proposed Mt. Kenya-Aberdare wildlife corridor organized by Rhino Ark, Mount Kenya Conservation Forum and key partners on 28th July.

Renaldo Retich showing the Eburu Forest-Lake Naivasha Corridor to the Landowners from the proposed Mt Kenya-Aberdares Corridor

MT. KENYA-ABERDARES WILDLIFE CORRIDOR GAINS MOMENTUM

Participants in the second Workshop

The landowners in the Thego Forest –Sangare Ranch section of the proposed Mt. Kenya-Aberdares wildlife corridor attended the second workshop to discuss the suitability of the proposed corridor on 16th September 2017. The meeting followed a series of field visits to the Eburu-Lake Naivasha wildlife corridor, Mt. Kenya-Ngare Ndare wildlife corridor and to Il Ngwesi Conservancy eco-lodge organized by Rhino Ark and the Mount Kenya Conservation Forum to build the understanding of the landowners on the benefits of such corridors.

During the meeting, the landowners established a steering committee to lead the corridor establishment process. Rhino Ark was requested to act as the secretary of the committee. As the next immediate step, the landowners decided to walk together the corridor in early October to gain a spatial understanding of the corridor, visit the various land parcels in the corridor and understand the expectations of the respective land owners, as well as to start knowing each other better.

Sylvester Mambili meeting Imenti community (Mt Kenya)

ABERDARE AND MT. KENYA FENCING PROJECTS ARE MODELS FOR KAKAMEGA FOREST

Sylvester Mambili, Kakamega Community Forest Association Chairman, visited the Aberdares and Mt. Kenya to learn about the benefits of the electric fences built by Rhino Ark and its partners on 2nd September 2017. He was accompanied by Peter Kinyua, Chairman of KFS, Naomi Apali, Vice Chairperson of KFS, Christian Lambrechts, Rhino Ark Executive Director and Adam Mwangi, Rhino Ark Fence and Community Manager.

During his visit, Mambili met with leaders and members of the Bondeni community that neighbours the Aberdare National Park, as well as leaders and members of the Imenti community in the north-eastern part of Mt. Kenya. They discussed, among others, how the fences help secure their life and their livelihoods and protect the forest resources.

This was a follow-up to the visit made by Rhino Ark Directors to Kakamega Forest on 15 June.

Sylvester Mambili meeting Bondeni community (Aberdares)

SOUTH WESTERN MAU ECOSYSTEM

LAW ENFORCEMENT EQUIPMENT DONATED FOR SOUTH WESTERN MAU

Camping equipment hand-over to KFS and KWS team

Finlays, Rhino Ark and IDH's Initiative for Sustainable Landscape has donated equipment to support law enforcement activities in South Western Mau on June 2017. The equipment comprised tents, sleeping bags, backpacks, mountaineering boots, and gumboots provided to KFS and KWS rangers operating in South Western Mau. The equipment was procured by Rhino Ark with funds received from Finlays and support provided by the IDH's Initiative for Sustainable Landscape.

The equipment will enable KFS and KWS rangers to conduct multiple-day patrols in the forest. The hand-over of the equipment was attended by, among others, James Finlays Managing Director Guy Chambers, James Finlays Group Finance Director Julian Rutherford, James Finlays (Kenya) Managing Director Simeon Hutchinson, Rhino Ark Executive Director Christian Lambrechts, IDH/ISLA Programme Manager Winnie Mwaniki, KFS Ecosystem Conservator Thomas Kiptoo and KWS Warden Salome Chelelgo.

Unihuts line rear view

KUSUMEK RANGERS' OUTPOST COMPLETED

Rhino Ark has completed the construction of a new outpost for Kenya Forest Service rangers at Kusumek. The outpost is located roughly mid-way along the forest cut line that marks the eastern boundary of South Western Mau Forest Reserve. It is the second of two new outposts that were planned for establishment in 2017 to support forest protection work.

The outpost structures comprise one large (2-room) and three small (single room) unihuts, together with a kitchen shed unit, an ablution block, and a roof catchment fed water tank. A well has also been established to ensure year-round water supply is available for the forest rangers based at the site. The outpost has been established with financial support from Finlays and technical support from Kenya Wildlife Service, under the ISLA initiative.

Group pic after flight

AERIAL SURVEILLANCE OF SOUTH WESTERN MAU LANDSCAPE CONDUCTED

Rhino Ark, with the support of IDH/ISLA and Finlays, conducted a surveillance flight above the South Western Mau landscape, including the upper catchments of Sondu and Mara rivers on 3rd August 2017. The purpose of the flight was to appraise senior officials of the challenges affecting the forests and other areas in the upper catchments of these two critical rivers, as well as to detect illegal activities. Participants included the KWS Assistant Director, Central Rift Conservation Area and the KFS Assistant Head of Mau Conservancy, among others. The flight was followed by a de-briefing session to review and discuss the status of the catchment areas. The flight was the third one of the year.

SOUTH WESTERN MAU FENCING PROJECT UPDATE

Measurement along a river crossing on cut line

Fencing of the eastern boundary of the South Western Mau Forest Reserve is a key goal of the SW Mau landscape conservation project. The proposed construction of a game-proof electrified fence will help to address

human-wildlife conflict challenges faced by the forest adjacent local communities, as well as provide Kenya Forest Service with a management tool to better control human access into the forest.

Towards preparing for this, a team comprising Rhino Ark, Kenya Forest Service, Kenya Wildlife Service and local community members commenced the preliminary technical review of the forest cut line between 28 September and 2 October, covering a total of 36.2km. The work involved taking detailed measurements of the cut line, noting all relevant features, including rivers, streams, spring points, significant features and access points into the forest. A final section of the cut line will be reviewed at a later date, and all the data collected will facilitate the technical planning and budgeting process.

Section of forest adjacent to a tea farm

ABERDARES ECOSYSTEM

NEW FENCE ATTENDANTS TRAINED

Fence attendants and trainers participating in the training

50 newly recruited fence attendants received a three-day training in the maintenance of electric fences at the Kaguru Agricultural Training Centre on 15-17 May 2017.

The training was organized by Rhino Ark and Kenya Wildlife Service and supported by Gallagher Power Fence Systems Ltd which provided a team of fence technicians to train the new recruits.

The new fence attendants have now been deployed around the 400

km Aberdare Electric Fence.

Kaguru Agricultural Training Centre, located near Meru Town, agreed to set aside one acre of their premises for the purpose of training in fence maintenance. This made this training and will make future trainings more effective.

Thank you to Steve Gragg from Gallagher and his team for providing training on a voluntary basis.

2017 ABERDARE FENCE RELAY RUN FLAGGED OFF

Dr. Margaret Otieno flagging off the run

The 8th annual Aberdare Fence Relay Run was flagged off on 6th July 2017, by Dr. Margaret Atieno, CEO, Wildlife Clubs of Kenya, at a colourful ceremony held at Treetops Lodge in

the Aberdare National Park.

The Aberdare fence Relay Run was conceived in anticipation of the completion of the 400km Aberdare Electric Fence. The purpose of the run is to have all the schools that neighbor the Aberdare Fence take part in a relay race around the Aberdare ecosystem. Participating schools are selected through an environmental essay writing competition, organized jointly by Rhino Ark and Kenya Wildlife Service (KWS). 600 children from 60 schools participate in the Run. The schools, each in turn receive the Run Baton and run several kilometers along a section of the Aberdare fence line, up the hills and down the valleys and along dusty rural

roads near the fence to hand over the baton to the next participating school.

The Run aims at raising awareness among the youth living around the Aberdare ecosystem of the importance of conserving this critical water tower, which provides among others, most of the drinking water for Nairobi and the urban centers located around the Aberdare ecosystem. The Run also provides an opportunity to appreciate the benefits derived from the electric fence which has reduced tremendously human wildlife conflict around the Aberdare and assisted in curbing illegal activities in the forest.

SURVEILLANCE FLIGHT CONDUCTED ABOVE KIPIPIRI AND WESTERN ABERDARES

Team participating in the flight

Rhino Ark, together with KWS and KFS, conducted a surveillance flight above the forests on the western slopes of the Aberdares and Kipipiri Hill. Participants in the flight included the KWS Assistant Director/Mountain Conservation Area, KFS Head of Central Highlands Conservancy, KWS Senior Warden/ Aberdare National Park, KFS Regional Commander/Central Highlands Conservancy, KWS Company Commander, KFS Geta Forest Station Manager and Rhino Ark Executive Director.

Although the forests on the western slopes of the Aberdares were found largely quiet, Kipipiri Hill area was found impacted by quite a number of illegal activities, including charcoal making and logging. During the de-briefing meeting, the team discussed at length joint interventions to address the situation.

SCHOOL OF HOPE PROGRAMME FURTHER EXPANDS IN THE ABERDARES

Rhino Ark, in partnership with ChallengeAid (a UK based Charitable Trust), committed to assist in the establishment of School of Hope (SOH) at Wanjerere Pry School. This will be the third School of Hope project around the Aberdares after SOH-Bondeni and SOH-Njogu-ini. The

school was selected due to its close proximity to Aberdare forest ecosystem, its active and long-term participation in the Aberdare Fence Relay Run and its strong environmental conservation programme.

The concept of SOH is to provide a facility where pupils can converge after normal school hours to focus on their homework or conduct private studies in a conducive environment. The youthful learners also engage in music, drama and sport activities.

Last month, Sophia Kamweru of ChallengeAid and Adam Mwangi, Fence & Community Manager at Rhino Ark, presented a cheque to SOH-Wanjerere Management Committee. The funds will be used to purchase text books for the schools. The SOH-Wanjerere Committee will provide a well secured room equipped with shelves and desks. In addition the Committee will take full charge of the day-to-day running of the SOH, including overall supervision, management and good keeping of the SOH assets.

PROMOTING TOURISM IN NORTHERN ABERDARES

The presence of tourists in a protected area is usually a major deterrent to the carrying out of illegal activities. Over the past years, several areas in the northern Aberdares have been impacted by illegal activities. This has called for multiple interventions, including the establishment of new KFS outposts, more intensive patrols and engagement with the communities.

Recently, Rhino Ark and KWS have initiated the marking of new trails in the northern Aberdares to promote tourism and help deter illegal activities. Two new trails have already been surveyed.

FEEDBACK AND TESTIMONIALS

Francis Njogu Mbutu, CFA Chairman & youth leader, Ndabibi Location, Eburu Ecosystem

Land values in the area have escalated since the fence was built. At the Ngobobo area near the fence, farms costed about Ksh. 30,000 per acre 2 years ago. Now they cost upwards of Ksh. 200,000 per acre. This has been driven by demand as people have realized that the wildlife problem has been addressed.

The fence has impacted on the youth. Previously, many youth were engaged in illegal activities in the forest to earn income. After the fence was built it became difficult to enter the forest and some opted to join organized groups to carry out legal business. Those who were unable to do so sought employment in the large farms in the area such as Aquila and Duro farms. In my opinion, the fence has helped to address over 90% of the illegal activities that used to be carried out in the forest."

Caroline Wanja, President, Wanjerere Primary School, Southern Aberdares

"I would like to take this golden opportunity to thank the ChallengeAid and Rhino Ark for establishing a community library in our school. This has helped us to do private studies and helped to improve our grades. Sporting equipments received have helped us to develop our talents and to be all-rounded pupils. The provision of sanitary towels for the girls is very critical as most girls shy off from attending school in certain days of the month. We would like to pass our regards to the management of Rhino Ark and ChallengeAid for this wonderful support. God Bless you."

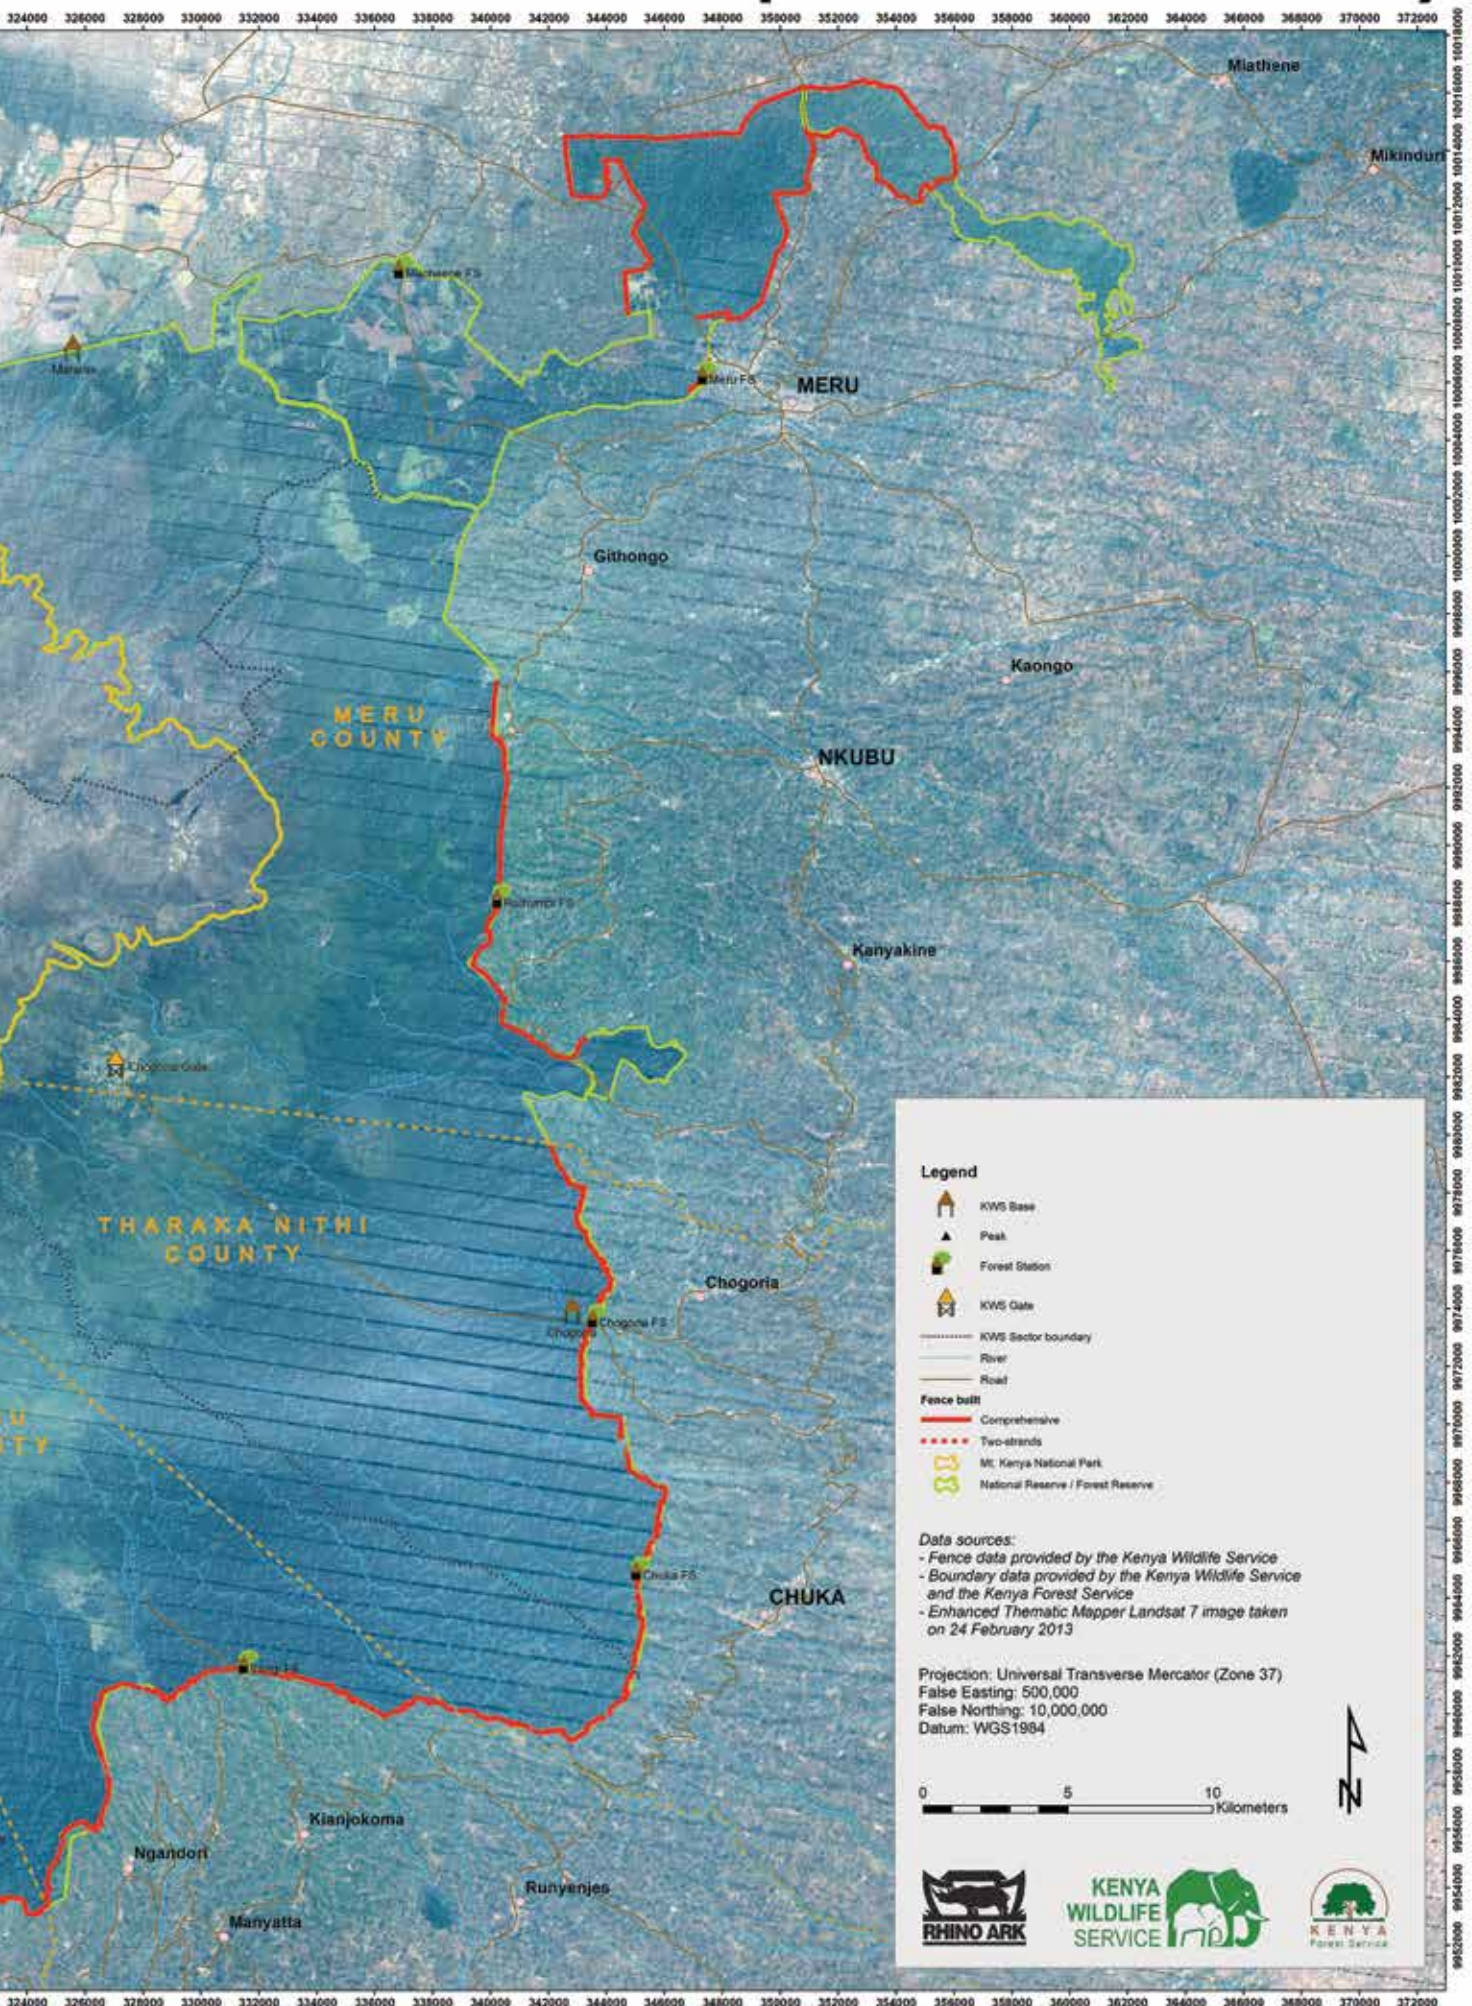

Mr. Mworio Daniel, Resident, Mt Kenya Ecosystem

"Living next to Imenti Forest in Mt. Kenya has been the most treacherous experience. Marauding elephants raided our farmlands, destroyed fences and water tanks. Last year we lost eleven community members as a result of human-elephant conflicts. On behalf of my community, I would like to express our sincere appreciation to Rhino Ark for building an electric fence around Imenti forest. The fence means security to the entire community and their properties. The electric fence has also secured the sacred Lake Nkunga which was under threat due to illegal logging."

This map illustrates the geographical context of the Mount Kenya National Park, highlighting the fence line as of July 2012. The park is situated in the central and eastern parts of the image, with its boundary marked by a yellow line. The map shows the following locations and features:

- Counties:** Laikipia County (top left), Nyeri County (center), Kirinyaga County (bottom right), and Embu County (far right).
- Towns and Villages:** Nanyuki, Naro Moru, Timau, Kiganjo, and Kimunya.
- Sectors:** Sirimon Sector, Chogoria Sector, Kamweti Sector, and Naro Moru Sector.
- Mountains and Peaks:** Mount Kenya, Ol Doinyo Lengai, and Ol Doinyo Gata.
- Fence Line:** A yellow line representing the fence boundary, with a red line indicating the start of the fence in July 2012.
- Infrastructure:** Roads and a railway line are visible.

PROGRESS AS OF 24 OCTOBER 2017

MANY THANKS TO ALL SPONSORS OF RHINO CHARGE 2017

Rhino Ark would like to express its thanks to the following Service Sponsors for their support:

Rhino Ark would like to express its thanks to the following Guard Post Sponsors for their support:

And thank you to the land owners of Songa Conservancy upon which this event took place, and the entrants and the thousands of people and organisers who supported them.
